Prospects and Problems

George W. Stocking Jr.
PROSPECTS AND PROBLEMS: VII

With this number, we start our fourth volume, more or less on our biannual schedule. Hopefully, the somewhat reduced size is a reflection of the summer doldrums in this unprecedented drought year, and not of flagging interest or lack of news in the history of anthropology. However, there does seem to have been a slight falling off of participation since our last issue, and we appeal once again for help from our readers.

Journal of the History of the Behavioral Sciences-- The flyer announced as being included in the last issue of HAN should if all goes well in our production process be included in this one. Once again, we encourage our subscribers to read and contribute to the JHBS. Its new editor, Dr. Barbara Ross (Psychology Department, University of Massachusetts, Harbor Campus, Boston) has recently suffered an extended hospitalization due to an auto accident, but has somehow managed to keep the Journal on schedule from her hospital bed. We offer our best wishes for her recovery, and for a continuation of the notable improvement in the Journal's quality under her editorship.

Center for Advanced Study in the Behavioral Sciences-- The copy for the last two numbers of the Newsletter has been prepared at the Center for Advanced Study in the Behavioral Sciences, Stanford, California, where the Editorial Secretary has been a National Endowment for the Humanities Fellow during the academic year 1976-77. The assistance of the Center, and particularly of Mrs. Irene Bickenbach, who typed the final copy, is gratefully acknowledged.
