Scholarships

Mark Hodgson, Class of 1988, has been admitted to the Pennsylvania Department of Agriculture's Bureau of Animal Industry veterinary training program. This program is provided in cooperation with the University of Pennsylvania. The student will receive a scholarship to attend the Pennsylvania State University College of Veterinary Medicine. The scholarship has been made possible by the Friends of the Friends of the Pennsylvania Veterinary Foundation. Hodgson is the recipient of the 1988 Max H. Hodgson, Class of 1988, scholarship.

Michael Mihlfried, William Rives, and Frederick Rock, all of the Class of 1991, are the recipients of the Bob Cottey Book Grant.

George and Marion Dilley Jones Scholars in Reproduction

Dr. Sue M. McDonnell, Dr. Patricia Sertich, and Dr. Elaine D. Watson have been named George and Marion Dilley Jones Scholars in Reproduction. They have been selected to receive awards for their research in the field of reproduction. Each scholar will receive a full tuition scholarship.

Chryssann Collatos, Class of 1988, is the recipient of the Dr. Samuel F. Scheidt Memorial Scholarship, presented by the Pennsylvania Veterinary Foundation. Steven Wilson, Class of 1988, is the recipient of a scholarship offered by the Burlington County Kennel Club. The scholarship offered by the Mid-Susquehanna Kennel Club was awarded to Patrice Klein, Class of 1988. Encarnacion Arias-Karolewski, Class of 1989, and Frederick Doddy, Class of 1989, are the recipients of the Plainfield Kennel Club scholarship.

Seed Grants

Each year a number of new research projects are funded at the School through seed grants. These small grants are designed to permit researchers to begin new projects. Funding for the seed grants comes from a number of different sources and in the case of this listing, also from the Friends of New Bolton Center. The projects are:

- Effects of an Intravenous Dimethyl Sulfate (DMSO) Infusion on Subsequent In Vitro Bacterial Activity of Equine Uterine Neutrophils. Investigators: Drs. Frazer, Watson, and Strzemienski.
- Echocardiographic Evaluation of Cardiac Function Associated with Sulfazine Administration in the Horse. Investigators: Drs. Redf and Spencer.
- Prostaglandin Levels in the Involving Mare. Investigators: Drs. Sertich and Watson.
- C-Reactive Protein in Horses and Neutrotic Foals. Drs. Wala and Johnston.
- Influence of Ovarian Follicular Status on Uterine Ectasia in Dairy Cows Treated with Prostaglandin F2alpha during Diestrus. Investigator: Dr. Burton.
- Investigation into Maintenance of Pregnancy in the Mare. Investigator: Dr. Watson.
