A Note on Transcription Choices

Any transcription from original manuscript material into contemporary word-processed document necessarily captures some features of the original text at the expense of others. This transcription prioritizes clarity and legibility for the contemporary user over strict adherence to the page organization of the period letters. This allows the transcription to be read quickly, even when moving from one letter to the next, without the visual distraction of, for example, the rapid and inconsistent line changes that would have characterized the typed document should the original line organization of the text block – typically two to three lines per typed line – have been preserved. Ease of use for the contemporary reader/researcher comes at the expense of some period detail, however. Typed entirely in Times New Roman for clarity of content, the transcribed document cannot capture, for example, the wavering hand of Susanna Cheesman in her December 17th, 1781 letter to Rebecca Buckley: “the Cold Weather ... has so Stiffend my fingers I can scarsely feel my Pen,” she writes, adding “You can see by the writeing how cold I am” (page 9). These types of decisions have necessarily affected the transcription provided.

The transcription has been consistent in its methodology, adhering to several formatting rules:

- Text that is [bracketed] has been added for clarity, and does not appear in the period letters.
- The page organization of the letters, typically on one sheet, have been preserved in recto and verso form – that is, all text from the recto is transcribed on one page, and all text from the verso is transcribed on a separate, subsequent page for each letter. Exceptions are noted and explained in brackets.
- Address information and post markings would interrupt the body of the text if transcribed exactly as they appear. The address information on the recto has been noted at the top of the page transcribing the recto side text, though it actually appears opposite this text and flipped in the horizontal direction. Note of any wax seal on the verso appears in the same location.
- In general, very little space is left between lines of text and between paragraphs in the letters. Spaces have been added between paragraphs for clarity. In the rare case that a letter does leave a space between paragraphs, additional spaces have been left in the transcription as well.
- Indentation is rarely used at the beginning of new paragraphs in the letters. Indentations, where transcribed, also appear in the period letters.

Additionally, the Penn Manuscript Collective first transcribed a selection of these letters on February 5, 2016. These transcriptions have been edited for formatting and with some textual changes, but largely the transcriptions have been reused here. They are:

- E. M. Buckley to Rebecca Buckley, November 12th, 1787 P. 18
- Sarah P. Buckley to Rebecca Buckley, November 12th, 1787 P. 19
- Anthony M. Buckley to Rebecca Buckley, April 25th, 1788 P. 22

Our Smitten Friends are sent on Errands full of love:
For us they Sicken and for us they Die –

I truly Sympathize with you my Dear Beckey on the loss of your worthy mother, and allow you to grieve a little while but not too long. Like you I lose the best of parents when far from him, and at a time of Life I most needed a Parent-Guardian – Yet when I considered that it was the Will of an allusive Providence to take them to Himself (I was very young when without Father or Mother) I was resigned, reflecting that my loss was their gain. So my Dear I pray you to keep up your Spirits and Endeavour to regain your Health which I most sincerely Wish you a perfect share of, for Life without it, is a Heavy Burden.

I little thought when I wrote you last, that my next Letter would be Dated from the Place. Through what New Scenes and Changes must we pass I may justly say. Since I left Barbados I have seen Antique St: Kills, St: Eustatia, was in the City of Cork lay at Cove a Fortnight and at the Expiration of very near three
Months arrivd Here in Tolerable good Health. my Poor Sister quite unwell has been so ever since we made the Banks of Newfoundland – Desires her love to you and all the Family. I have seen your Friend G ... & since so been here. had I not known he was Engagd to Miss Brotherson I cant tell what woud have become of your poor Friend Susans Heart. I have got into such vein of writeing shoud not know when to leave off. Was it not for the Cold Weather which has so Stiffend my fingers I can scarsely feel my Pen. Eleven Oclock at night in my Chamber without a Fire I am hardly able to hold out to tell you, I am with love to your Brother and Sister, M's and M'ss Patterson. Your ever Affectionate and Sincere

Dear Becky

Demerary 19th December 1782 –

Moses has just informed us that you are going or gone to Paritea, We cannot suppose you can know of our being at Peter’s Hall, as we suppose your Visit there is intended justly at least ^tells but if this finds you at Leguan you may know that the visit intended must be deferred till after Christmas as then we shall be at Home and happy to see you; Mrs. H is so big that after she returns she will scarcely trust Herself from Home again for some Months and allways at Home and nothing can make ^me more happy to find that the length of time since she saw you has not diminished the Affectionate Friendship so long subsisting between you, & assure ^you that no one thing has made me more uneasy than an apparent neglect to Her from you, but when I consider the Disservility that has attended an intercourse for some Time past – & look upon it not so much your Fault and therefore excuse you – but I once Thought that nothing would have prevented you from being with Her for some Months at least, and not to have been Six Months without ere a visit from you. Complaining in the Rights of your Affectionate Friend Jon³. Hicks – Polly begs her love to you –

January 27th. 1784-

Why Becky Child how dost thee do, I am sorry that I can’t stay with thee, but I wish thee
better – even that is much more than you wish me, however I suppose you are not
essentially different from your Sex you want a great deal of courting before you
condescend to take so much notice of me, as to make any thing else of me than a go
between to you and your dear Polly – however you may see by the beginning of this that I
have yet some small Remains of that ancient Concern for you, which I never professed
but have practised towards you – I was happy to hear by Tommy Sr. that you was well
but sorry that you are as far off as Leguan from Paritea, and I suppose notwithstanding
your great pretended Affection for Dear Polly you will make the distance as great,
however I beg your pardon for casting my Reflections as you have been in America only
Six months and the 13th Jan’ [January] I had the Happiness of having a Letter from Miss
B. to Doctor Jonathan Hicks Long Island, a very laconic one I assure you and inside
blank, I suppose for myself to fill
however as my dear polly is writing an Answer to yours. I could do no less than prove the same time to thank you for mine Mrs. H. tells me you acted after me to know if I was as fine a fellow as I used to be, give me leave to answer with much less impartiality than she would, and take it at once he is as fine a fellow as you ever saw if possible ten thousand times more than ever, this only between you & I. believe me I would wish it known as it may produce some Bickerings amongst the Ladies in Philda –

Mrs. H. tells me you want my picture as the last favor, I have little else to do however if I had ever so much I would find time to send it you & if it is done not as you think it ought alter it where you please – 10 take it – Jon Hicks, aged 31 years & two months, about 5 feet 10 Inches high, brown Complexion dark brown Hair generally wears it platted behind – fine round forehead, well arched Eyebrows – dark hazle lively Eyes, a long [inkblot over this word, presumably “nose”] little inclined to the Roman, a lovely pouting mouth, truly formed for kissing./ a round Chin, well covered with a black beard Shaved close – always wears a smile upon his Cheek. a pretty long Neck. Shoulders well turned and gently falling, such a pair of Arms as if fit to encircle you and press to a Breast where ever in the Mansion of perfect Sincere and lively friendship. As you only want a portrait, It is unnecesary to be drawn lovers

Give my love to Betsy & Sally tell pompy Sylvia Cecila howd’y – accept as much of the Regards as you please

Becky I should like to see you when you read this if you are not pleased with it put it in the fire only save from the flames my picture wich you wished for so much. Polly that is M. H will write you a long Letter and I suppose will let nothing escape Her [hole in page, this word lost] a good thing may be repeated and I therefore tell you that John Philip Hicks is a fine fellow and what makes him more to be esteemed He has had the small pox and is very fond of his papa & yours. You have my Dr Girls I trust seen the two seasons pray how do you Bear the Changes. I long to hear your sentiments on many subjects, as I suppose you can be under no restraint to Parents that will be happy to Observe Nature Undisguis’d & Partial to your youthful Squibles you are to Reflect, when writing to us it will be more Acceptable if you are very Minuit. Tell us your hopes & fears your Disagreeabels as well as Agreeables be Assur’d we shall be happy to lend our separation as easy as Possible And hope the time is not far Distant when we shall have it in our Pow’rs to Meet never to Part more while in Mutibility, had you Anxious Poppa been favor’d with Answers to Particular letters, I could Inlarge on thee subjects, but hope it will not be long before we shall have that satisfaction – Then it will be in his Pow’r to Accompany me if the answers are Agreeable But my Dear Babes we have not heard if you Commencing house Happen if you have, do be particular in letting us know how you like it

Dear Sister

Having but a few minutes notice of this Convoy anew, cou’d by no means omit informing thee of the Gen. Wellcare of our Brothers Family. Phiney has been admirally preserved & I think there is a probability of his being spared to his Family some time longer. Sally Harrison I have reason to believe will shortly be married, tho’ her Father will not yet give his Verbal Assent. Noisy Chatter has perhaps had some influence in the matter. I am much disapointed in not receiving more letters from thee, as I observe many letters Vessells by the Papers, arrive, from you Post. We have never had any but of two.

The Rebecca Buckley Ferguson Family Genealogy, 1738-1913: Notes on the Genealogical Records

The Rebecca Buckley Ferguson Letters include two leafs of genealogical information about the family, with writing on recto and verso. These pages each have a single cut edge (as if sliced out of a family album) and what appears to be an etched and printed decorative border with two columns and the headings “Births,” “Deaths,” “Marriages,” and “Births,” respectively.

Though the document records the precise dates of these major life events from 1738-1913, it only includes two hands, which will be referred to as “Hand 1” and “Hand 2” for clarity. Hand 1 uses the same pen throughout, recording births through 1885, marriages through 1885, and deaths through 1909. It seems clear that much of the work by Hand 1 was done in one sitting. There is a noticeable continuity in the way in which the pen runs dry and thin on the page then on the very next line includes a little blot, as if the writer had just dipped it into ink and carried on writing. Hand 2 records births from an unknown August from some time after 1885 through 1913, marriages from 1903-1909, and deaths in 1912. Though it is clear that Hand 2 is the hand of one person from their distinctive way of writing the capital letter ‘H,’ it appears as though this writer returned to the document several times over the years. They use several pens, sometimes writing tightly, sometimes more loosely.

This genealogical information has been transcribed in full, but, since it was written on the type of pages that might have appeared in a printed, 19th century family album, and since it was largely written by one author in what seems to have been one sitting, it warrants further investigation. Hand 1 seems to have been a Rebecca Buckley Ferguson descendant attempting to lovingly reconstruct their own family past. In the process, it is extremely likely that some errors – of omission, in the case of family scandal, or fabrication, in the case where a reasonable guess or misremembered date was included without note – enter into the document. It is also worth noting that the Rebecca Buckley Ferguson Letter collection changed hands through several book dealers throughout the 19th and 20th centuries: since blank 19th century family albums are easy to obtain, it is possible that a collector or dealer could have fabricated these documents entirely in order to enhance the value of their collection. The inclusion of Hand 2 seems to suggest the former, but Hand 1’s appearance of having written in one session suggests the latter.

“Births” appears twice - once each on the verso of “Marriages” and “Deaths” – but will be transcribed continuously here for clarity.

Hand 2 will be distinguished from Hand 1 by the use of italics, which happens to be consistent with the appearance of Hand 2 in comparison to Hand 1.

Both writers use inconsistent abbreviations for the months. Dates will be written out “Month Day, Year” in the contemporary format for clarity.
