Ohio Academy of Science-- The Annual Meeting on April 3, 1976, included a paper on "The Newark Holy Stones-- The History of an Archaeological Episode," by Robert W. Alrutz of Denison University, in a session arranged by Ralph W. Dexter.

Social Science History Association-- The first annual meeting was held at the University of Pennsylvania, October 29-31, 1976. While there were no papers on the history of anthropology, the sessions did include several on the history of the social sciences. The SSHA includes a network of subcommittees in particular research areas, among them CHESM (the Committee on the History and Epistemology of the Sciences of Man), which may be of interest to our readers. For information write Henrika Kuklick, Department of the History of Sociology of Science, University of Pennsylvania.
