Pet Memorial Program

Instituted in 1982, the Pet Memorial Program provides a thoughtful vehicle for practitioners to express their sympathy for the loss of a client's pet. The program helps strengthen the bond between veterinarians and their clients, while generating important unrestricted dollars for the School.

In the words of one grateful client,

"It comes as no surprise to me to hear of my veterinarian's gift to your hospital. My experience with him has shown me what a caring, dedicated doctor this is...What he did to try to help my dog, I cannot even begin to tell you."

We gratefully thank the 68 veterinarians listed below who participated in the program in 1991-92. Their contribu-

tions, totaling close to \$15,000, enhance teaching and patient care programs at the Veterinary Hospital of the University of Pennsylvania and the George D. Widener Hospital for Large Animals.
