

Master of Environmental Studies Capstone Project ScholarlyCommons Author Agreement

ScholarlyCommons is an institutional repository for the research and scholarly output of researchers at the University of Pennsylvania. The Earth and Environmental Science Department will deposit a copy of each thesis submitted as partial fulfillment of the requirements for the degree of Master of Environmental Studies.

Authors give ScholarlyCommons the non-exclusive, irrevocable right to copy, distribute, display, and publish their work, and to migrate it in future as needed to keep the content available in an accessible, online format. Submissions must comply with supported file types as outlined on the ScholarlyCommons Guide (Microsoft Word or PDF preferable). Authors also allow the University of Pennsylvania to feature parts or all of this work in its publications, accompanied by proper attribution to the author.

Authors retain all copyrights, allowing them to publish, present, and/or use any or all of the material in their contributions for their own purposes.

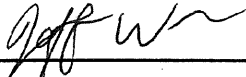

Contributions must be authentic and original, and proper attribution in quoting or referencing others' material must be given. Additionally, reuse of work from another source may require permission of the copyright holder. For guidance, please refer to <http://guides.library.upenn.edu/content.php?pid=244413&sid=2019380>.

ScholarlyCommons will not deposit a copy of the project without receiving this form signed by the author and author's advisor.

By signing this agreement, the author agrees to the above terms, and asserts that all original data in the project is accurate and authentic.

Title of Work A Business Analytics Approach to Corporate Sustainability Analysis

Name Jeff Wen

Signature  Date 4/9/15

Please provide contact information for author:

Permanent Address 1177 Spring Meadow Dr.
